TRIESTE NEX 2022

---

With its 2 Universities and over 30 international research centres, **Trieste is undoubtedly an international Capital of Science**. Thanks to its strategic geographic position – at the centre of the Euroregion and along the border between the so-called “old” and “new” Europe –, Trieste aims at becoming a global hub of scientific excellence and at pursuing innovative partnerships with the corporate sector.

Since its 1<sup>st</sup> Edition, Trieste Next was designed as a **temporary “observatory” and “laboratory”**, thus eventually becoming an international showcase where state-of-the-art applied research, new technologies and innovative companies meet. **Technology transfer** is a key factor, since without research and innovation there is no growth nor economic development. Trieste Next aims at raising the awareness on the issue, thus promoting the importance of partnerships between academia and the private sector.

The 11<sup>th</sup> edition of Trieste Next-European Science Research Forum is scheduled on **September 23-25, 2022**.

---

## TRIESTE NEXT 2022

---

The 11<sup>th</sup> Edition of Trieste Next is scheduled on September 23-25, 2022, and will be entitled **“The Boundaries of Science. Innovation and research: ethical limits and new frontiers”**.

Trieste Next 2022 is promoted by the Municipality of Trieste, University of Trieste, ItalyPost in collaboration with the European Commission. Trieste Next is produced by Goodnet Territori in Rete.

**Trieste Next 2022:** a 3-day event featuring over 50 talks, conferences and seminars and over 150 speakers. As in previous editions, Piazza Unità d’Italia will host the **Science Village** with temporary labs and workshops.

---

# THE BOUNDARIES OF SCIENCE

---

The 2022 Edition of Trieste Next is entitled **“The boundaries of science. Innovation and research: ethical limits and new frontiers”**.

Since its first edition in 2012, Trieste Next has aimed at addressing key issues of the scientific and cultural debate: from food resources to water management, from energy to sustainability. The 2022 Edition will offer the chance to outline the scientific agenda for the coming years, to propose far-reaching reflections on the new frontiers of research and innovation, as well as on the ethical limits driving the debate within the scientific community. Trieste Next will thus be an opportunity to promote a fruitful dialogue between STEM disciplines, humanities and social sciences, with a calendar of over 100 events and the participation of over 300 speakers.

---

---

PAST EDITIONS

---

## PAST EDITIONS

---

Among former speakers of Trieste Next: **Edvard Moser, Helga Nowotny, Tahar Ben Jelloun, Viktor Mayer-Schönberger, Lidia Brito, Roger Beachy, Cameron Neylon, Jan Lundqvist, András Szöllösi-Nagy, Julian Nida-Rümelin, Walter Merida, Inge Liekens, Segenet Kelemu, Jos de Blok, Steve Chan, Kathleen Richardson, Miguel Benasayag, Rama Gheerawo, Thierry Pedrazzini, Dominick Salvatore, Roman Jerala, Peter Wadhams, Jian Cui, Claudia Ringler, Ozgë Akbulut, Maria-Pau Ginebra.**

A few data about Trieste Next 2022: 70 conferences, 300 speakers, 1 Science Village with 50 exhibits, 400 students and researchers from all over Italy, 200 volunteers, 45.000 attendees.

---

## SCIENCE VILLAGE

---

As in its previous editions, Trieste Next will host a series of laboratories, workshops and seminars in Piazza Unità, located in the very heart of the city.

All activities will be curated by the University of Trieste and the city's scientific institutions, as well as by private partners, and will be open to the general audience: the **Science Village** will offer a wide variety of activities for kids, teenagers, families, researchers, entrepreneurs and science-lovers in general.

---

# TALKS, CONFERENCES, WORKSHOPS

---

Trieste Next 2022 will also feature a series of public conferences, debates, symposia and book presentations which will take place in major venues around Piazza Unità and the Science Village:

- **public debates and keynote lectures** with internationally renowned scientists and scholars
- **conferences and workshops** curated by the University of Trieste and other scientific and academic institutions
- **scientific meetings and symposia** targeting a specialised audience and curated by research groups and/or corporate associations

---

---

SPECIAL PROJECTS

---

# TRIESTE NEXT INTERNATIONAL ACADEMY

---

BA, MA and PhD students from all over Europe may apply to join the **Trieste Next International Academy Fellowship**, a special initiative aiming at favouring the participation of young researchers and perspective scholars.

Trieste Next 2022 is planning to welcome **over 400 participants** who will attend the full schedule of events. Students may also attend guided tours in research centres, dedicated seminars and selection sessions organized by the Festival's scientific partners and representatives from the corporate sector. The 2022 Edition of the Trieste Next International Academy Fellowship will focus on **biotechnologies, medical sciences** and **physics**.

Trieste Next will thus become a unique **educational and training opportunity**.

---

## VOLUNTEERS

---

Students from the University of Trieste will join the Trieste Next team in our **“Volunteer Program”**, which will give them the unique opportunity to contribute to the organization of the Festival and, at the same time, have a first-hand perspective on how an event focussing on science communication is designed and produced.
